Comfort Swing Chair

Made entirely of metal and fancy colored canvas. The material is light and firmly braced, finished in black enamel. Folds compactly, occupying space of only 4 1/2 x 21 inches. Is set up or folded by removing only four stove bolts. Perfectly simple.

Solid Comfort

In the Comfort Chair. There's no argument necessary—it's simply a fact. Sitting or reclining. Swinging or not. Just good old Comfort. Put the chair anywhere. You don't need a great big lawn with trees or a great big anything. Any little shady corner will do. You can put the chair where the shade is and move it if the shade moves. The independent standards which are a part of the chair do it all.

Suppose you call and see it. You do not need to buy. But you probably will—other people do. Because the price is only \$4.00.

The novel question of whether a man can work in his own shop has arisen in connection with a strike of fourteen workers at the granite shed of Peacock & Bonazzi company in Montpelier, Vt. The men went out because L. O. Cecitti, who is a member of the firm, insisted on taking a part in the manual labor at the plant. This same question came up in Westerly some time ago, and the local union practically took a position directly contrary to the action of the Montpelier men.—Westerly Sun.
